

A group of people, seen from behind, are seated in a church, looking towards a large, vintage-style world map on the wall. The map is the central focus, showing continents in shades of brown and green. The text is overlaid on the map.

Imagine every member of our
church actively participating in
missions.

Engage Our Whole Church in Global Ministry

Switchboard makes this possible.

It's a virtual platform connecting believers
to needs on mission teams worldwide ...

and it's simple, secure and effective.

Engage Our Whole Church in Global Ministry

Church members want to be involved in missions, but some:

- feel unqualified
- don't know where to start
- have time constraints

Switchboard removes these barriers by:

- Uncovering hidden talents and passions within the congregation
- Increasing member engagement
- More effectively supporting missionaries

How it works:

- Members create a profile
- Switchboard matches them with missionaries' needs
- Members and missionaries meet virtually

Our Missionaries:

- Post needs
- Are matched with skilled believers
- Receive support that allows them to focus on their core ministry work.

Virtual missions makes a difference.

“Switchboard allowed me to use my marketing skills to help someone very specifically who had a specific need and then see that impact.”

*Joel,
Kingdom Consultant*

“Switchboard volunteers reduced stress on our team, letting us focus on God’s work.”

*Peter,
Missionary*

“This tool changes how we can think about mobilizing people towards the Great Commission.”

*Keaton,
Missions Pastor*

Next Steps:

- Approve Switchboard
- Announce the program
- Empower a point person
to engage the whole church

By supporting this initiative,
you can mobilize every member
of our church to find their part in
God's global story.
